General Description

The IEEE Vehicular Technology Society (VTS) Tokyo/ Japan Chapter, Singapore Chapter, Seoul Chapter, and Taipei Chapter are cooperatively hosting this symposium every year. This symposium aims at providing the platform for researchers from the Asia Pacific area to share the fresh results and potential topics, call for comments or collaborations and exchange innovative ideas of the leading edge research in wireless/mobile and network technologies. You are cordially invited to submit your recent research work to the IEEE VTS APWCS 2025. Accepted papers will be included in IEEE Xplore. The interested technical fields include but are not limited to the following:

- ▶ 5G+/6G communication systems
- ▶ AI and deep learning for communications
- ▶ Antennas, propagation and channel modeling
- ▶ Autonomous vehicles technology
- ▶ Drone/UAV communications
- ▶ Dynamic spectrum management
- ▶ Enhanced massive MIMO systems
- ▶ Green communications
- ▶ Integrated sensing and communication
- ▶ Intelligent reflective surface and its application
- ▶ IoT, D2D communications
- ▶ Mobility management
- ▶ Modulation and coding
- ▶ Network security
- ▶ Optical networks
- ▶ Radio on fiber technology
- ▶ Radio resource management
- ▶ Signal processing for communications
- ▶ Smart grid and smart cities
- ▶ Software defined networks
- ▶ Satellite communications
- ▶ Ultra wideband technology
- ▶ Wireless ad hoc and sensor networks
- ▶ Wireless power transfer

Paper Submission

Paper submission is managed by TrackChair. Authors are invited to submit either a **full paper (5 pages)** or a **short paper (2~3 pages)** in a PDF file with standard IEEE format.

For detailed submission instruction, please visit the submission website <https://apwcs2025.trackchair.com/>
